

Sagem-Interstar

Pioneer & global leader
in boardless IP fax

About us

Sagem-Interstar (formerly Interstar Technologies) is the pioneer and global leader in boardless IP fax.

Acquired by the European mobile and broadband communications leader, Sagem Communication (www.sagem.com) in May 2006, Sagem-Interstar continues to lead the fax server market by "Changing the Way You Fax" through its award-winning software solutions:

XMediusFAX

T.38 Fax over IP
(boardless FoIP server)

LightningFAX

Fax server for fax boards

Sagem-Interstar's fax server solutions offer email-based, desktop faxing and fax outsourcing, catering to enterprises and service providers of all sizes. They reduce costs, increase productivity, and integrate with organizational workflows to streamline business processes.

Sagem Communication's traditional document management, multifunction printer/copier and fax server solutions, coupled with Sagem-Interstar's pioneering all-IP fax communications architecture, constitute a diverse backbone for secure and reliable faxing in sectors such as healthcare, education, government, finance, and mortgage.

Boardless T.38 FoIP Pioneer

Sagem-Interstar's XMediusFAX utilizes the ITU's T.38 fax standard, which is the only proven and reliable, point-to-point method for legally transmitting faxes over IP networks in real-time.

Sagem-Interstar's XMediusFAX T.38 FoIP solution is the world's first boardless FoIP server. Unlike other fax server software, it is a software-only solution that does not require fax boards or additional hardware/software kits to fax-enable a network.

Future-Ready Fax Server Software Investment

Even if your organization has not yet adopted VoIP, XMediusFAX lays the foundation for easy migration. In legacy PSTN networks, XMediusFAX can be deployed with intelligent fax boards. When the transition to VoIP is made, it simply connects seamlessly to the VoIP gateway (such as Cisco, Avaya, AudioCodes, 3Com, Alcatel, and Vegastream) to fax-enable the VoIP network. XMediusFAX enables rapid, secure and reliable fax transmission of confidential data by routing faxes directly to intended recipients' email inboxes or secure network printers. This facilitates compliance with regulations such as the Sarbanes-Oxley Act (SOX) and Health Insurance Portability and Accountability Act (HIPAA).

Global Market Leadership

For the fourth consecutive year, Sagem-Interstar leads the IP fax forefront, dominating with nearly 75% worldwide market share, according to Davidson Consulting, a fax-industry analyst.

The overall fax server market is expected to grow by a 6.8% CAGR through 2009. Davidson Consulting also forecasts that the IP fax market, in particular, will grow by more than a 100% CAGR over the next 5 years.

Sagem-Interstar is poised to maintain its market leadership in the rapidly-growing IP fax sector through its strong customer focus, its dedication to pioneering technology, and its experienced team of technical professionals.

Customer Testimonials

GOVERNMENT

"TriWest has 86 offices in the US to provide access to healthcare for our military personnel. We were seeking a quick and cost-effective solution...Given the breadth of our 21-state coverage, government processing standards, HIPAA regulations, and stringent security guidelines...we selected Sagem-Interstar's XMediusFAX for its industry-class, fault-tolerant technology and high scalability."

- Rick Green, Vice President and CIO
TriWest Healthcare Alliance

FINANCE/MORTGAGE

"When I discovered XMediusFAX can operate boardless, I was amazed....XMediusFAX was easier to set up than RightFax. I was surprised it only took 30-45 minutes. I installed the email gateway, typed in a DID, set up a profile, tested it for dial-tone, and it was done!"

- Kelvin Bustillo, IT/Facilities Manager
Express Capital Lending

MANUFACTURING

"The XMediusFAX solution is so efficient and transparent that nobody even knows XMediusFAX is in there...It is software-only and pretty much worked out of the box..."

- Ronald Yan, IT Manager
Chartered Semiconductor Manufacturing

HEALTHCARE

"We needed an online fax solution that would not require expensive and problematic cards. As the market's only T.38 Fax Over IP solution that does not require a fax board, XMediusFAX matched the profile."

- Jonathon Anderson, Director of IT
Fresno Heart Hospital

"Sagem-Interstar's product is rock solid and support is fantastic. We have been using it for several years, and not once have I encountered any problems. Support technicians are very knowledgeable and have lots of patience. I couldn't ask for a better product!"

- Kelly Shidler, Sr. Technical Consultant
Baylor College of Medicine/Breast Center

EDUCATION

"XMediusFAX was easy to implement and required virtually no training....I have the utmost confidence in Sagem-Interstar's technical staff. We are extremely satisfied with Sagem-Interstar's product and service."

- Holly Clausen, IT Director
Wenatchee Valley College

"Since we no longer have any fax boards to deal with, XMediusFAX can be easily and inexpensively rescaled to provide for the three new schools that we plan to progressively launch by August 2006."

- Brad Niesluchowski, Director of MIS
Higley Unified School District

SERVICE PROVIDER

"We are very pleased with our choice of Sagem-Interstar. XMediusFAX SP adds important new outbound capabilities for PingTone customers. Sagem-Interstar's engineering team was excellent."

- Richard Schulte, Executive VP
PingTone Telecommunications

XMediusFAX Express
Boardless T.38 Fax Over IP solution for lighter fax usage (4 fax channels, 100 users or less).
